Dear Nishabh,

As part of the staff team at FACT, I was asked to engage with Nishabh in his study of Community Engagement, Networking and Social Cohesion. I found him open and easy to speak with and also well prepared with resources and tools that could aid conversational exploration of the ideas and concepts. It quickly became clear that the work he was undertaking could be mutually beneficial to future students at GSA as well as to the Town Hall; local groups and the wider community.

Nishabh, was happy to explore this idea with University staff and developed a Co-Design workshop, including mapping tools which helped the participants to explore the opportunities and challenges that would be involved in transforming the concept into a practical reality. There were a range of people who had been invited to attend the workshop but were unable to do so. However they did express an interest in future planning as FACT and GSA move forward on this project.

Personally, I have been challenged and inspired to consider more visual methods of gathering and presenting information. Especially a greater use of info-graphics and photographing and recording your interactions with partners as a concept progresses. I believe this will be a useful addition that we at FACT can bring to our funding applications, and our AGM.

Nishabh, I wish you well in your studies and next steps of your life journey.

Kindest regards

Ruth Jeffries
Befriending Project Co-Ordinator
